The Psychology Department at the Benemérita Universidad Autónoma de Puebla (BUAP) (Meritorious Autonomous University of Puebla) is introducing a Diploma course on the Attention deficit disorder, which begins on the 23rd of September 2016. The opening event will be attended by ICDP trainer and psychologist Jose Luis Flores who is one of the organizers of the event.

The university has included the themes of the ICDP programme as module 5 of the course.

ICDP trainer, Jose Luis Flores Jimenez, will be introducing the content of the ICDP programme by holding workshops over a period of 4 days: on the 18th and 19th and on the 25th and 26th of November 2016.

BUAP is the oldest and largest university in Puebla, Mexico. Founded on 15 April 1587 as Colegio del Espíritu Santo, the school was sponsored by Society of Jesus during most of the Spanish colonial era before turning into a public college in 1825 and eventually into a public university in 1937.[1] The religious origins can be

seen in many of BUAP's buildings in Puebla city centre, which were once colonial-era churches.
