### **News from ICDP trainers in Finland:**

Above is a photo of the latest 22 graduates of the basic ICDP training with ICDP educators Christel Holmström and Petra Zilliacus.

This is a multi-professional group with health nurses, a psychologist, a librarian and many professionals from early childhood education.

We have shared videos and stories with each other during four intensive days and these people will use the ICDP ideas with clients of all ages in the Southwestern archipelago in Pargas, Finland.
